Good practices

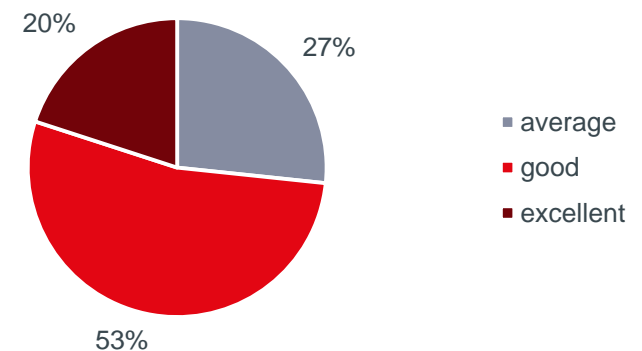

Exchange of good practices between European partners and Israeli Colleges

- **Sharing of good practices** between Israeli colleges considered good by more than 50%

- Mainly positive experience with **exchange of good practices** with European partners

Sharing of good practices between Israeli Colleges

- *The **visit of the European Mentors team helped us** to receive much more focused perspective on our pilot activities and workflow.*
- *The **main problem we encountered** is the unorganized structure of International development in the college - a problem I believe would be solved with time.*
- *We **missed** to have a practice **to deal with 'Management Change'** for internationalization issues with former plans (new president, new CEO, New CFO, etc...).*

Thank you for your attention!
